Berklee \$25,000 Scholarship Awards Program.

In cooperation with Berklee College of Music, MusicFest Canada is pleased once again to announce a \$25,000 Scholarship Awards Program.

Through an individualized audition process, festival judges will select outstanding high school age student musicians to be the recipients of tuition assistance scholarships to Berklee College of Music. Scholarships will total \$25,000 and may include one-year full tuition awards.

Boston's Berklee College of Music is one of the world's recognized leaders in training musicians for careers in contemporary music. Berklee is making these awards possible again in recognition of our years of outstanding achievement in making MusicFest Canada one of the longest running festivals promoting music education in North America.

We are grateful to Berklee for helping to acknowledge and support the efforts of all the dedicated student musicians and faculty who are helping to make this year's Canadian MusicFest a success.

President's Message

The majestic picture of Calgary and the Rocky Mountains on the front of the Souvenir Program sets the mood for the 23rd Annual MusicFest Canada.

MusicFest is being held in one of Canada's most exciting cities in some of the finest performance facilities in the country. We are excited about the Calgary Centre for the Performing Arts, the Jack Singer Concert Hall, the Glenbow Theatre, the Max Bell Theatre, Knox Presbyterian Church, Delta Bow Valley, and of course the fabulous Calgary Convention Centre. These facilities, combined with fifty world renowned adjudicators and clinicians and an additional sixty hours of clinics and workshops, promises an unparalleled educational experience for you, the thousands of young musicians attending the event.

Of special note are the evening concerts. They include Western Canada's most outstanding professional Choral Ensemble *Pro Coro*, Andre Jutras conducting the National Youth Band of Canada, the incredible Vocal Nation from Los Angeles, and the once in a lifetime experience of the Tommy Banks/Jeff Jarvis Jazz Band featuring North America's top jazz soloists. We thank our major sponsors, General Motors, Yamaha and Canadian Airlines, and the Alberta Foundation for the Arts for their continued support in making this musical and multicultural festival experience possible.

A VOTE OF THANKS

Acknowledging MusicFest Canada's many sponsors and suppliers in print somehow seems inadequate. Listed are just their tangible contributions. What we don't see are the intangibles. These include the time spent planning and organizing their support, taking the opportunity to promote the virtues of the event, raving about its talented performers and encouraging other companies to get involved.

Please take a moment to become more familiar with the names of your corporate sponsors listed on this page. Over the course of the next few days, if you see a representative from one of these companies, tell them as you have us, how much you have benefited from and enjoyed your MusicFest Canada experience. That is really all the thanks they are looking for.

Practice. Made Perfect.

In music, there's simply no substitute for practice • That is why the Yamaha Disklavier piano makes the perfect practice instrument. • With the Disklavier piano, soloists and vocalists can simply select a prerecorded disk—either from the Yamaha Accompanist collection, or one recorded by their own accompanist. Instantly, they have live piano accompaniment—with every key and pedal movement preserved—anytime.

And that's just the beginning. With the Yamaha Disklavier piano, students have control over their own practice sessions. They can change the tempo of the accompaniment. Transpose keys. And repeat a difficult phrase as often as it takes to get it right. • So visit your authorized Yamaha Disklavier dealer for a demonstration today. Or, call 416-298-1311 • And see how easy it is to perfect practice.

OUR MOTTO IS IT'S SAFETY F

It's true, in designing the new Cavalier, we made safety a top priority. But what perhaps distinguishes Cavalier safety from conventional safety is that

we've made it all-inclusive. It includes everyone in the car. And it includes everyone who buys a Cavalier, not just those who can afford optional extras.

THE NEW CAVALIER

N'T SAFETY FIRST. OR EVERYONE.

Standard on every Cavalier are two front air bags, anti-lock brakes on all four wheels, front and rear crush zones, and a more rigid safety cage with side-guard

door beams. And on the sedan, rear door child security locks. Safety for everyone in every new Cavalier. It's a little long for a motto, but it's a great idea.

GENUINE CHEVROLET™

THOSE WHO KNOW THAT MUSIC MUST PLEASE THE EAR TO REACH THE HEART.

Beauty in music is a measure of differing tastes, and musicians strive to capture the shades of sound that create real meaning. The renowned Bach Stradivarius Trombone by Selmer is an instrument of such creation. **THEY PLAY BACH.**

Out of the Garage

by Charles Chapman

The resourceful band director can give young guitarists a mainstream musical experience.

It's your first day on the job as a high school band director. A quick survey of the students in the band room reveals that you are short on brass and reed players, but have a half dozen guitar players hoping to play in the band. What do you do? You could pick the best two guitarists, have them alternate on the tunes that include a guitar chart, and send the other four home. Or, with a little creativity, you could let them all join in and grow musically - without compromising the integrity of your arrangements or having six guitarists playing chord changes.

Generally, guitarists in stage bands have few opportunities to perform outside of their customary role in the rhythm section. Many band directors call on the guitarist only to play rhythm, and on occasional blues or rock-oriented solo. If your instrumentation is sparse, a guitar could fill in missing horn parts.

The guitar's range is wide, and its sound blends especially well with either tenor saxophone or trombone. Guitar is also an excellent choice for reinforcing a weak horn section. This approach allows you to represent all of the lines in the arrangement, and ultimately gives guitarists a much broader musical experience than they will have in a garage band.

The first challenge will be to get the student guitarist reading standard notation. A majority of them play by ear and/or read guitar tablature only. All guitarists should learn to read the written language used by all of the other instruments.

A beginning guitarist usually has about the same range and facility as a beginning or intermediate tenor trombonist. As reading skill increases, an advancing player can read up to the high C above the treble staff (concert). Since guitar sounds an octave lower than written, parts are always notated in the treble clef, one octave above the actual pitch.

Through the use of the guitar synthesizer, sounds of unusual instruments can be simulated. There is no argument that the actual instruments are superior, but if they are unavailable, using a guitar synthesizer is an option for rounding out a needy stage band or orchestra.

A music department can purchase a guitar synthesizer for the price of a good brass or woodwind instrument. Five years ago, a colleague of mine bought a brass clarinet for his concert band and it hasn't been out of the case since. Given diminishing music budgets, a guitar synthesizer could be an economical educational

tool that meets numerous musical needs.

If your school is inundated with guitarists, a way to get them participating in your music program is to establish guitar ensembles. At Berklee, the standard guitar ensemble consists of six guitars, bass, and drums. My students have successfully written their own arrangements for school ensembles. Once they hear their arrangement, their quest for knowledge increases. Arranging provides an opportunity for young guitarists to gain much-needed knowledge about harmony and theory.

The guitar can be an asset in many musical situations. Giving guitarists more chances to participate will increase the appeal of your music program. With some creative management, the guitar can turn from a thorn in the band director's side to a drawing card. The possibilities of utilizing guitars in secondary school music programs are limited only by the band director's imagination. □

Charles Chapman is an associate professor of guitar at Berklee College of Music. He has authored numerous articles on guitar education.

D.W. Poppy Secondary School in Langley, British Columbia is a comprehensive music program that excels in all areas of musical performance. Total musicianship is the focus and key to the success of the D.W. Poppy Music Program.

Greetings, Earthlings.

The 1995 Chevrolet Lumina Van.

One look and you can see this obviously is the work of a higher intelligence. For starters, Lumina is the only van in the universe to offer an optional power sliding side door. The same available keyless entry system that opens and closes that door for you also unlocks the front doors and tailgate to make re-entry into space easier. And to protect you from dings from manic meteorites and grocery carts, Lumina Van also gives you composite outer-body panels. As for advanced technology, its available traction control system is so intelligent, it monitors roadgrip at your front wheels and automatically reacts to give you improved traction on changing road surfaces. Lumina Van. It looks different because it is different. So come see your Chevrolet dealer and take a look at one. It's amazing how one sighting can transform you into a believer.

Pro Coro Canada is a twenty-five voice professional chamber choir based in Edmonton, Alberta. It is only one of three fully professional choirs in Canada. Pro Coro was founded in 1980 by Michel Gervais, a native Albertan who left Pro Coro in 1988 to become director of Music at Notre Dame Cathedral in Paris. Gervais was succeeded by Anders Eby who, in 1991, was succeeded by Pro Coro's current Artistic Directors, Eva Bostrand and Soren Hansen.

Pro Coro has developed their national and international reputation for excellence especially in its interpretation of Baroque and Modern repertoire. They present an annual concert series of 5-7 concerts in Edmonton. In 1993 they received a Salute to Excellence Award from the City of Edmonton for outstanding work and for bringing national recognition. The ensemble also performs throughout Canada and including the Guelph Spring Festival and the Joy of Singing International Festival in Toronto. Pro Coro concerts are often broadcast nationally by CBC radio. Last year, the CBC chose Pro Coro to represent Canada on a series of international broadcasts over the European Broadcasting Union.

Show your program to receive this offer. Valid May 17-23.

KNOWING HOW MUCH *you* LOVE THE OUTDOORS, WE *went* TO GREAT LENGTHS TO MAKE *the* INDOORS JUST AS APPEALING.

Ahhh, the great indoors. The interior of the 1995 Chevy full-size pickup is nothing short of extraordinary. Totally redesigned. Luxuriously equipped. Something you'll notice when you sit down in the new contoured seating.

It will hug you before it knows your first name.

The cockpit-like controls take care of everything. Sound, temperature, vision and feel are all handled in a contemporary new way.

It boasts the most front and rear legroom of any full-size extended-cab pickup. Which means more room to stretch your legs. And your mind.

And now that you're sitting comfortably, let's kick some serious asphalt, shall we?

Put the engine into gear and experience the joy of a powerful 5.7L V8 engine (or a 4.3L V6, the biggest in the industry). Enjoy the Insta-Trac system which allows on-the-fly shifting from 2WD to 4WD, at any speed.

And it will stop just as powerfully. Chevy is the only full-size pickup with standard 4-wheel ABS brakes. For additional safety in 1995 it also has a driver's side air bag*.

Hop into this 1/2 ton and you'll carry over 2,000 lbs. of payload like it was lunch. Need to carry more? It offers a

towing capacity up to 7,000 lbs.

And let's not forget the most important feature of all. The emblem that proudly sits on the grille. It makes this truck a Chevy. The most dependable, longest-lasting trucks on the road.†

Inside and out.

* Always wear seat-belts, even with air bags.

† Based on full-line truck company registration data 1984-1993 (excluding other GM trucks).

When kids study music, they learn about harmony.

Kids learn a lot about themselves when they play in a band or orchestra. They discover the benefits of practice; how it can help them find and reach their full potential.

They also learn a lot about each other. They learn to take responsibility for their own performance, and to trust one another to do the same.

One of the greatest sources of satisfaction for most music teachers comes from the pride their students take in their achievements, the recognition of what they have accomplished *together*.

At Gemeinhardt, that's also one of our greatest rewards. By utilizing *both* technology and skilled craftsmanship, we are able to create instruments of extraordinary beauty and remarkably consistent quality. We believe that students deserve instruments of only the highest calibre to help them realize their full potential.

Gemeinhardt salutes the tremendous efforts of band and orchestra teachers who year after year teach our children the joys of playing music. Because we believe kids who learn to play together learn to live together.
