20TH
ANNIVERSARY
1992

SOUVENIR PROGRAM
MAY 13 – 17, 1992
HALIFAX / DARTMOUTH

No borders. No boundaries.

"Music is supposed to be for the heart and soul. And imagination. It shouldn't have arbitrary limits. It should speak to your infinite potential.

"That's what I like about the RGX. It's versatile enough that it can encompass a lot of the kinds of feelings I have when I play.

"When the RGX came along, it was great, because then I could play something that was a stock production line guitar. No custom alterations, no nothin'. I just use it exactly the way it comes."

Berklee \$25,000 Scholarship Awards Program

In cooperation with Berklee College of Music, MusicFest Canada is pleased once again to announce a \$25,000 Scholarship Awards Program.

Through an individualized audition process, festival judges will select outstanding high school age student musicians to be the recipients of tuition assistance scholarships to Berklee College of Music. Scholarships will total \$25,000 and may include one-year full tuition awards.

Boston's Berklee College of Music is one of the world's recognized leaders in training musicians for careers in contemporary music. Berklee is making these awards possible again in recognition of our nineteen years of outstanding achievement in making MusicFest Canada one of the longest running festivals promoting music education in North America.

We are grateful to Berklee for helping to acknowledge and support the efforts of all the dedicated student musicians and faculty who are helping to make this year's Canadian MusicFest a success.

President's Message

Allen S. Michalek

Welcome to Halifax and the 20th anniversary of MusicFest Canada. My colleagues on the Board, the Province of Nova Scotia and Cities of Halifax and Dartmouth, General Motors, Yamaha, MT&T, Petro Canada, our staff and other sponsors hope that this will be a most rewarding week, educationally, socially and culturally.

We have over 300 ensembles from every province in Canada, from Nanaimo to St. John's performing daily, dozens of clinics and workshops, five headline concerts and a full slate of evening cabarets. Even with this amazing list of educational activities, I hope that you will take time to enjoy the hospitality and history unique to the Maritimes.

If there is anything that we can do to make your participation more enjoyable, please do not hesitate to speak with any one of the over 250 volunteer staff or stop by the Festival Registration office.

Greg Kerr

On behalf of the Province of Nova Scotia, it gives me great pleasure to welcome the many young participants, the Festival's adjudicators, staff and special performers to our Maritime province. Nova Scotia has many long established traditions and its cultural heritage of European settlement dates back 400 years. Our musical traditions are particularly strong and many Canadians have come to know and respect our music-making talents. It is, therefore, most gratifying for our province to host the National Finals of MusicFest Canada, to show off many of our fine young musicians and their love of making good music.

We are also proud as Nova Scotians to show some of the sights and sounds of our province and of our capital region, in particular, as hosts. I hope you will experience a taste of our Bluenose hospitality for which we have gained a most favourable reputation.

Best wishes to all participants for a memorable Festival in Nova Scotia.

Greg Kerr
Minister, Department of Tourism and Culture

On behalf of Yamaha Canada Music, I am pleased once again to show our support to MusicFest Canada. For over fifteen years Yamaha and MusicFest have worked together to bring to Canada one of the finest and most exciting musical festivals. The Challenge of Change

by Larry Monroe

In Berklee's Professional Performance Division, we have always balanced a number of important elements in approaching our educational mission.

These elements have included the needs to retain relevant traditional tenets of music, to maintain college-level standards, to adapt to changing music styles, to keep pace with the development of new technologies, and to respond to the preferences of individual students. Other important factors have been the pre-college musical experience of our students and the constantly shifting musical environment that our graduates are likely to encounter. Recent developments in these last two factors have presented new challenges of particular concern.

We all are aware that today's entering students sometimes are bereft of those basic theoretical and performance skills that ensure success in college-level music programs. This condition is often the result of a lack of formal methodical musical training prior to college entry. In the past, this training has been inconsistent, at best; the recent decline of public school music programs has only made things worse.

Even the most effective public school music programs frequently

An adjudicator at this year's JazzFest, Larry Monroe chairs the Professional Performance Division at Berklee College of Music. This article originally appeared in Berklee today, the college's alumni-oriented music magazine.

focus solely on traditional performance formats, such as the symphony, the concert band, and the traditional choir. These settings provide opportunities mostly for players of the more traditional instruments and vocalists, rather than players or singers interested in contemporary music. And in public school music programs that include

"We need to find creative ways to awaken students to the ever-broadening parameters of the performer's craft."

jazz ensemble and jazz choir, there still may be fewer opportunities for students who play rhythm section or non-acoustic instruments.

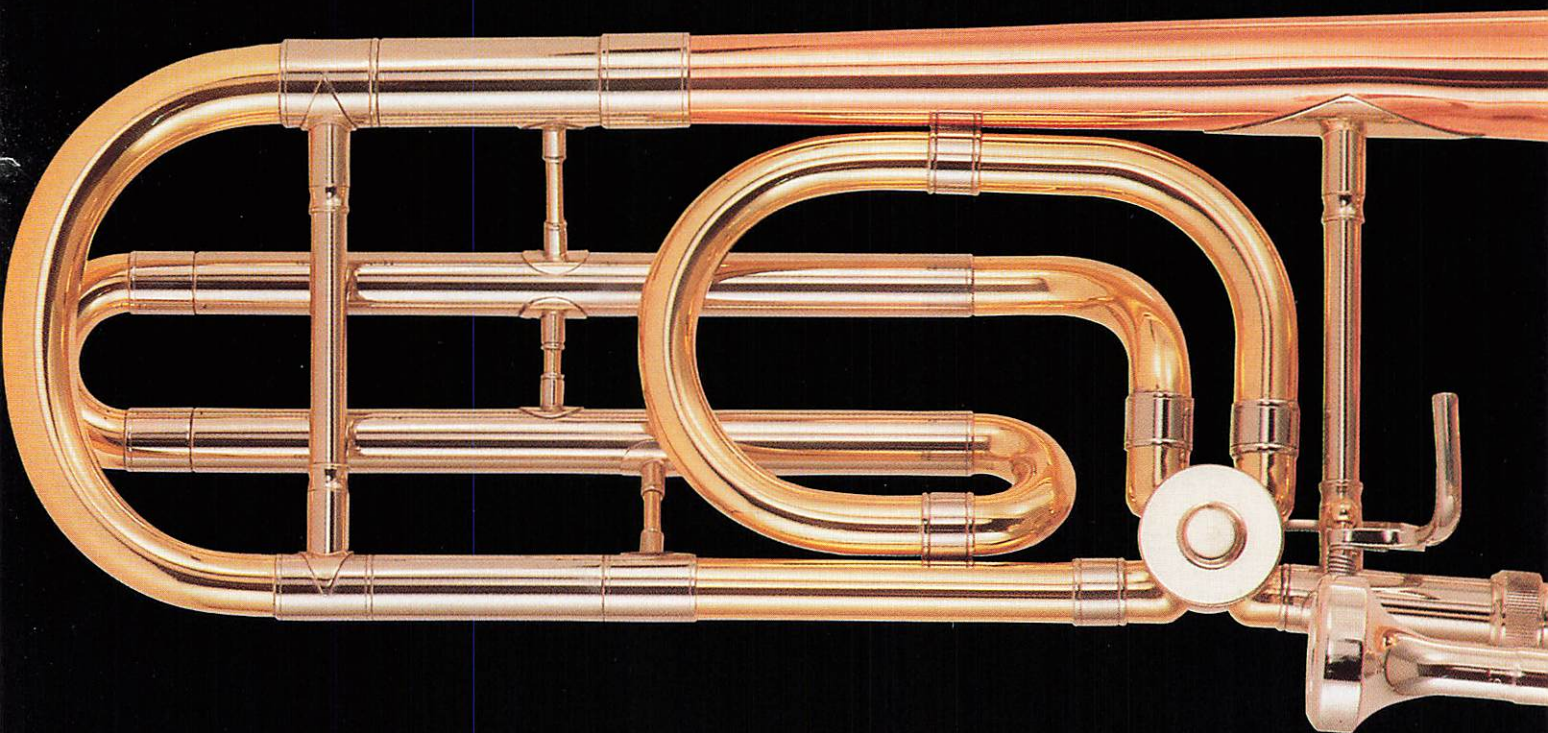

Another related problem is that many of our entering students often have not performed in group settings. As a result, they have not benefited from the sense of musical organization that comes from participating in a structured rehearsal. Also, they may not have experienced the respect for music literacy and the understanding of form, rhythm, balance, and musical structure that group performance can provide. While this does not negate the raw talent and musical instincts

most entering students have, this deficiency can make the transition to college-level study a difficult one.

In addition to these challenges, there have been some fundamental changes in music performance which we must address in our educational planning. For example, the role of the performer has changed over the years. Live music is performed with different technical guidelines than recorded music. The emphasis on reading music varies from style to style and instrument to instrument, and music notation systems are diverse. New instrumental techniques that relate to new music styles often conflict with traditional values—interpretation, tone, intonation, dynamics, articulation, expression, and other performance elements have been impacted by changes in performance styles.

At Berklee, we must continually examine these new developments and identify the musically meaningful ingredients that will guide our students as they seek musical and professional fulfillment. In addition, we should determine how to integrate and align these ingredients with the enduring tenets of music we continue to embrace.

As educators, we need to find creative ways to awaken students to the ever-broadening parameters of the performer's craft. Further, we need to channel their natural enthusiasm for music into enthusiasm for music training through intriguing, effective, and relevant courses that address the challenges of the professional music environment.

ONE TROMBONE STANDS ALONE...

Nearly forty years ago, the legendary Conn 88H ushered in the modern school of symphonic trombone playing. Since that time, it has been rediscovered by successive generations of serious trombonists with increasing enthusiasm. The 88H has often been copied, but never equalled. Today, it stands as much alone as it did at its inception.

The original, now classic design delivers superb response in all registers. A precision-fit, tapered F rotor enables the artist to move effortlessly through the most demanding of scores while the unique first position slide spring allows for more precise tuning adjustments.

A resonant 8-1/2" rose brass bell and special Conn mouthpiece by Emery Remington further distinguish the 88H as a most flexible and dynamic instrument.

Discover the legendary Conn 88H, the world's most popular artist trombone.

A VOTE OF THANKS

Acknowledging MusicFest Canada's many sponsors and suppliers in print somehow seems inadequate. Listed here are just their tangible contributions. What we don't see are the intangibles. These include the time spent planning and organizing their support, taking the opportunity to promote the virtues of the event, raving about its talented performers, encouraging other companies to get involved, etc...

So if you would, please take a minute to become more familiar with the names of your corporate sponsors listed on this page. And over the course of the next few days if you see a representative from one of these companies, tell them as you have us, how much you have benefited from and enjoyed MusicFest Canada. We are sure that is really all the thanks they are looking for.

CONFIRMATIONS OF PERFORMANCE

All Confirmations of Performance and times were mailed out by May 1. This told you where and when you will be performing. You must report to the warm-up check-in desk **50 minutes prior to your performance** to allow your ensemble to warm up 45 minutes prior to the performance. The check-in desk is located on the lower entry level of the World Trade and Convention Centre, and for ensembles performing at the Dalhousie University complex in the Foyer of the Rebecca Cohn Theatre.

REGISTRATION PROCESS FOR PARTICIPANTS

It is imperative to register at the Registration Desk prior to taking in any activities at the Festival. You will need to pick up your Festival Passes before your adjudicated performance or attending any workshops or concerts. If you need to purchase any additional passes you may do so at the Desk. The Registration Desk is located on the lower entry level of the World Trade and Convention Centre at the Cornwallis 1 room. The office will be open on Tuesday, May 12 from 6:00 p.m. to 8:00 p.m., Wednesday to Saturday 7:00 a.m. to 7:00 p.m., and Sunday from 7:00 a.m. to 3:00 p.m. Please allow yourself plenty of time to register prior to your performance time. There will be a \$45.00 replacement fee assessed for any lost participant passes, with no exceptions. Each registered participant will receive a Participant Pass, Official Program, Poster and Festival Newspaper. Passes must be worn at all times while on the Festival Sites.

ADJUDICATION PACKAGES

Standards of Performance plaques, the Gold, Silver and Bronze awards for each participating ensemble, will be available for pick up, along with adjudication sheets, at the Registration Desk the morning following the adjudicated performance of each ensemble. For those groups performing on Sunday, May 19, adjudication packages will be available for pick up between 6:30 p.m. and 7:30 p.m. Sunday evening. Honour Award Recipients will receive their Yamaha Tour Jackets and Plaques immediately following the adjudicated performance of their ensemble. These awards will be presented by an adjudicator. All scholarship winners will be announced at the Closing Ceremonies. Please note that any

adjudication packages not picked up will be sent to the school after the Festival by courier as soon as possible.

REGISTRATION FORMS AND FEES

Registration forms are an integral part of the MusicFest experience. These forms enable the staff to ensure that the performance stage is ready, the sound technicians get the sound just right, the ensemble is scheduled in the correct class and category for publication in the Official Program, the room supervisors can introduce the group correctly, and the adjudicators will properly identify the ensemble and the selections to be performed. All incomplete forms must be completed at the Registration Desk which will result in possible delays in registration. Ensembles received a statement of account with the Confirmation of Performance. All registration payments were due by April 18, 1992. Registration fees must be paid in full and all forms completed before passes will be issued to any ensemble.

INSTRUMENT REPAIR SHOP

The Repair Shop, sponsored by Buckley's Music, will be located on Level 3 of the World Trade & Convention

Centre, Highland 10 room. Emergency supplies will be available. As Buckley's is only a few blocks from the World Trade and Convention Centre, some minor repairs will be done in the store's shop. All minor repairs will be free of charge to MusicFest Canada participants.

DIRECTORS' RECEPTION

Allen S. Michalek, President of MusicFest Canada, and Russ Brannon, President of Musicstop, invite all ensemble directors and guests to the annual Directors' Reception, Sunday, May 17, following the Closing Ceremonies. The reception will take place at the Privateer's Warehouse in Halifax's Historic Properties at the foot of Duke and Water Streets. Invitations and information are available at the main festival office (near the registration desk).

56 WAYS TO BUILD A BACH

More professional players play Bach Stradivarius than any other horn. Yet, even with all those Strads out there, it would be hard to find two exactly alike. On our Model 180 Bb trumpet, for example, you can choose from:

8 mouthpipes, including reversed, to give you the exact balance of resistance and flexibility you're looking for. And, since top players demand that a trumpet's mouthpipe, bore, and bell work as a team, you'll also find...

5 bores, ranging from .453" to .468", and...

36 bells. This remarkable selection includes six different flares, each of which is available in light, regular, and heavy weight and your choice of yellow or gold brass. To further help you build a Bach that meets your needs exactly, take your pick of...

7 additional options, including a first valve slide trigger, third valve slide trigger with waterkey, third valve slide waterkey, stop-rod assembly for quick change to A, silver plate finish, gold plate finish, and hand engraving.

This is a partial list of choices and options for *one* Bach Stradivarius instrument (a complete list would also include 85 standard mouthpieces, each of which can be further customized to meet specific needs).

There is a similar list for *every* Bach Stradivarius instrument. We offer you the opportunity to custom-build your instrument because we know what you know:

When it comes to pro horns, almost right is all wrong.

THE FALCONAIRES OF THE
U.S.A.F. ACADEMY BAND
Master Sergeant Chris Walter, Director
With guest soloists Randy Brecker,
Trumpet, and Bob Stewart, Tuba

Saturday, May 16, 8:00 pm
Concert Stage, Metro Centre

The Falconaires jazz ensemble of the United States Air Force Academy Band has been performing jazz for more than 30 years. Famed trumpeter Marvin Stamm states, "A killer band! I would be proud to play with this group anywhere, anytime!!!"

The band consists of 18 enlisted musicians who are trained, academically and/or by experience, in all forms of music, but specialize in jazz. The Falconaires are one of the nine performing groups that make up the Academy Band. The Falconaires perform music that spans almost 60 years of jazz from Count Basie to Manhattan Transfer.

Since the early 1920s, symphonic jazz has been an important part of America's musical thread. The jazz ensemble, also known as the big band, jazz orchestra, or jazz band, has enjoyed immense popularity while at other times struggled to exist as an entity. Regardless of its public appeal, the jazz ensemble continues to have a profound effect on North American culture and indeed, the world of music. In addition, a resolution was recently passed by the Congress of the United States that declared jazz to be a "National Treasure."

The Falconaires travel nationwide to provide musical support for a variety of functions. As public relations representatives of the Air Force Academy, the band regularly performs public concerts at major jazz festivals. During these festivals, band members present clinics to young musicians on big band styles and techniques. The Falconaires have performed with such guest artists as Ed Shaughnessy, Clark Terry, "Doc" Severinsen, the Four Freshmen, Dianne Schuur, Art Pepper and Cat Anderson. To quote trombonist Phil Wilson, "The Falconaires are one of the greatest big bands in the world today." **The Falconaires are sponsored by the United States Air Force, NORAD and MusicFest Canada.**

NEW YORK VOICES

Friday, May 15, 8:00 pm
Metro Centre

The New York Voices are five singers that follow in the tradition of Lambert, Hendricks & Ross, The Singers Unlimited, the Swingle Singers and Manhattan Transfer. Although capable of performing in many idioms, their roots are definitely jazz.

They consist of musical director and arranger Darmon Meader, Sara Krieger, Peter Eldridge, Kim Nazarian and Caprice Fox. The New York Voices have toured from New York to Los Angeles to Tokyo and throughout Europe and most critics agree that they are the premier vocal group of the 90's. Following a two-month tour put together by GRP Records, their first album made Top Ten on Billboard's jazz charts. Their latest album "Hearts For Fire" was released earlier this year. Their repertoire and styling are extensive and include everything from "Chain of Fools" to John Coltrane's "Giant Steps". They have shared the stage with George Shearing, Mel Tormé, Bill Evans and Lee Ritenour.

Darmon Meader

MusicFest Canada is proud to present this outstanding group in concert in Halifax and as quoted in JAZZIZ "Move over Mantran!"

The Stadacona Band was established at Halifax, Nova Scotia in January 1940 with a complement of sixty members. It is actually a number of bands within a single band including the Concert Band, the Parade Band, the Mess Bands, the large Dance Band, the small Dance Band, the Fanfare Trumpets and the Brass and Woodwind Ensembles. They are required to perform at a variety of different kinds of functions annually and one or more of the combinations is appropriate for every engagement.

In 1978, Canada's Centennial Celebration, the Stadacona Band was featured from February to November in the Canadian Armed Forces Tattoo involving all service bands across the country. With the integration of the Canadian Armed Forces, September 1968 was the amalgamation of two other world touring forces bands, the Royal Canadian Artillery Band of Halifax and the HMCS Cornwallis Band, into the Stadacona Band. In 1986 the band was renamed the Stadacona Band of the Maritime Command.

The yearly schedule of the Stadacona Band includes television appearances and radio broadcasts, and concerts and parades throughout Canada. International travel is standard for all musicians and the band continues to perform in Europe, throughout the United States, South and Central America and the Caribbean. MusicFest is grateful for the assistance provided by Lieutenant-Colonel G.W. Klassen, Supervisor of Music for the Directorate of Ceremonial at National Defence Headquarters in Ottawa, for his endorsement. This performance by the band will usher in the 1992 Festival of Military Bands. **The Stadacona Band of the Maritime Command is sponsored by the Maritime Command of the Canadian Armed Forces.**

Trombonist Alain Trudel will be performing with the band this evening. **Alain Trudel is sponsored by Yamaha Canada Music Ltd.**

it beats my car

Sandra Gayle

 General Motors recently invited Sandra Gayle and seventeen other Canadians to test drive Pontiac cars.

The only thing they had in common was that none of them owned a GM vehicle, and none of them were actors.

Sandra, an import owner for three years, was given a Pontiac Sunbird GT and asked to put the car through its paces.

In order to determine exactly how well the car could handle, a series of daunting tests were devised and set-up around the test track.

Sandra's first challenge was the Slalom,  engineered to ascertain the vehicle's manoeuvrability.

The second, a Deke Wall, to establish handling under emergency conditions.

The third, a fast S-Curve, which combined speed and control.

And lastly, various brake tests to demonstrate the car's ability to stop safely within a given distance.

 Several circuits later, Sandra summed-up her experience with the statement above. Then added "It gave me a lot of confidence, it did what I wanted it to do."

In fact, all the test drivers were similarly impressed.

But don't take Sandra's word for it, test drive the Pontiac Sunbird GT and experience it for yourself.

"...the best cymbals I've heard..."

When it comes to cymbals, there's no fooling Chester Thompson or Phil Collins. Chester claims his SABIAN HH's are "the best cymbals I've heard." And Phil, he's been performing with SABIAN AA's for years. Why do so many of the world's greatest drummers feel this way? Because to them, there's no cymbal in the world better than SABIAN.
